Our unique handcrafted stone collection includes geometric, floral and abstract patterns that have been handcrafted on stone after days, weeks and sometimes months of patient hard labor by skilled third generation craftsmen. Details and patterns are achieved by “karigars”, Indian term for craftsmen, by manually denting the stone using nothing but a chisel and small hammer. A customer can choose the stone, size and designs. There are hundreds of thousands of patterns to choose from, alternatively you are welcome to send us a reference image and our creative artists will develop it for you. This collection is available as slabs and a range of pre-cut sizes of 2' x 2' (60 cm x 60 cm x 2/3 cm), 3' x 3' (90 cm x 90 cm x 2/3 cm) & 4' x 4' (122 cm x 122 cm x 2/3 cm) as well as custom sizes which can be used for a number of interior and exterior applications. Dive into our unique handcrafted lattice, also called stone mashrabiya collection. These are extremely popular in interior and exterior application use as partitions, screens, focal points and decorative elements.

Post finalization of stone and pattern, craftsmen use very basic tools to create the 3D design, hone it by hand and achieve a smooth matt or glossy finish manually using sandpapers with varying grits. The whole process can take weeks, even months depending on the intricacy of design, size of the panel and quantity.

A customer can choose the stone, size and designs. There are hundreds of thousands of patterns to choose from, alternatively you are welcome to send us a reference image and our creative artists will develop it for you.

Our Mashrabiya collection is available in a range of precut sizes of 2' x 2' (60 cm x 60 cm x 2/3 cm), 3' x 3' (90 cm x 90 cm x 2/3 cm) & 4' x 4' (122 cm x 122 cm x 2/3 cm) as well as custom sizes.
